

# DOES YOUR CHILD PLAY WITH DUPLOS?

---

The W&L Gender Development Lab is interested in how children play with their mothers, and we need your help!

**Who:** Children ages 3-5 and their moms.

**What:** You and your child will work together to build a Duplo castle, and then you'll get to play with it. This study takes less than an hour.

**Where:** The W&L Gender Development Lab, located in the Science Center. We can meet you by Lee Chapel to show you where to go!

**When:** Whenever you're available! Email us at [fulcherlab@gmail.com](mailto:fulcherlab@gmail.com) to set up a time to come in.

Participants will receive **\$25** and a Duplo gift bag as a thank you for helping us out!
